Data Analyst at BMW Group who builds BI dashboards, financial reporting, and SQL data models in AWS QuickSight, Athena, Power BI, and SAP. MBA candidate in Finance and Business Analytics with hands-on experience applying AI tools, automating workflows, reconciling financial data, and partnering with accounting and finance stakeholders.

WORK EXPERIENCE

Data Analyst | BMW Group | Mar 2026 – Present

- Developed an automated open-invoices dashboard using SAP and Cloud Data Hub data, adopted across 20 departments and 800+ users, including the CFO and CEO of BMW North America, saving the company nearly $100K annually.
- Replaced manual reporting for accounting and finance teams with 20+ BI dashboards in AWS QuickSight, saving 10–15 hours per week, and cut load times by up to 30% by rebuilding the backend SQL queries, data models, and ETL logic in AWS Athena.
- Reduced manual effort by about 20% by building Python workflows that automate recurring reports and flag data discrepancies for reconciliation and root-cause analysis.
- Led testing, validation, and UAT sign-off for the migration from IFT to the GFBB platform, supporting 30+ end users and launching with zero critical issues.

Sales Lead | Zumiez | Aug 2022 – Feb 2026

- Exceeded Q4 sales goals by 65% by running targeted marketing campaigns and optimizing staffing.
- Analyzed daily and weekly store KPIs, including sales, conversion rate, and units per transaction, and adjusted floor coverage and team coaching to close gaps against targets.
- Led and trained a team of 11 sales associates, improving productivity and overall store performance.

Revenue Operations Intern | FanDuel Sports | May 2025 – Aug 2025

- Enabled more precise CPM pricing by building dashboards that visualized historical ad performance across NBA, NHL, and MLB markets.
- Forecasted impression volumes and monitored delivery pacing across 45+ ad campaigns, recommending pricing adjustments for high-demand games.
- Cleaned and analyzed campaign datasets in SQL and advanced Excel (VLOOKUP, SUMIFS, PivotTables) to support pricing decisions.

Field Operations Specialist Intern | New York Life | May 2024 – Aug 2024

- Informed regional resource allocation by analyzing 12,000+ agent records in SQL and Excel and building BI dashboards that identified top performers.
- Evaluated AI recruitment tools for an automation initiative aimed at improving retention and reducing manual screening time.
- Kept leadership current by updating KPI reports and executive presentations with new trends and metrics.

EDUCATION

SUNY New Paltz | MBA, Finance and Business Analytics | Expected May 2027

SUNY New Paltz | B.S., Finance and Business Analytics | GPA: 3.8 | Dec 2025
